## Logitech k400 plus wireless keyboard

Ratings & Reviews5ExcellentWorks fine usually. Works on 2 cells provided with it. Not the best solution for gaming, up/down arrow keys are very Small. However, no Caps lock LED & no Num lock LED display. Non-bluetooth dependent. A USB adaptor provided to connect with device. Works with Only OTG-enabled Android phone/tablet (otg adaptor/cable required). Works well with PC too, just like any USB keyboard.READ MORESagar NimjeCertified Buyer, BhopalOct, 20162Does the jobFirst of all, delay from Ekart in delivering the product, that makes me reduce 1star from the review(check the product delivery history).Product Review.Keyboard is good, the only downside is the inbuilt touchpad.
